# PLATINUM SHIELD PROTECTION

## Protect Your RV

Keep your RV looking and feeling like NEW!

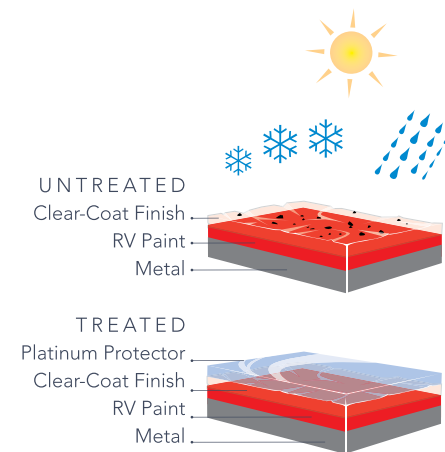

Paint Protection

### **Platinum Shield** *Paint Protection*

The sun's powerful ultraviolet rays will cause your paint to fade. The finish on your RV's painted surface is uneven. These peaks and valleys trap dirt, salt, pollutants and moisture which dull the finish, ruin the look of your RV, and affect its resale value.

**Platinum Shield Paint Protection** bonds to the surface, completely sealing the paint. It will create a smooth, durable finish that protects your RV against the harsh Canadian environment. This long lasting sealant protects and enhances your RV's finish with no requirements for waxing.

Guaranteed to protect your paint against excessive fading or oxidization

Fabric Protection

### **Platinum Shield** *Fabric Protection*

Spills and everyday mishaps are almost unavoidable, many leaving permanent stains on your new RV's interior.

**Platinum Shield Fabric Protection** is an invisible barrier that ensures easy clean-up of spills to avoid permanent staining. It penetrates each individual fibre to repel moisture and dirt, while the treated fabric remains open and breathes. This high quality environmental product will not alter the color or texture of your fabric or leave a residual odor.

Guaranteed to protect your treated fabric from staining as a result of a spill

## **Rip, Tear or Burn Guarantee**

An upgrade that guarantees against perforation due to accidental rips, tears or burns. It requires either the Fabric or Leather/Vinyl Protection

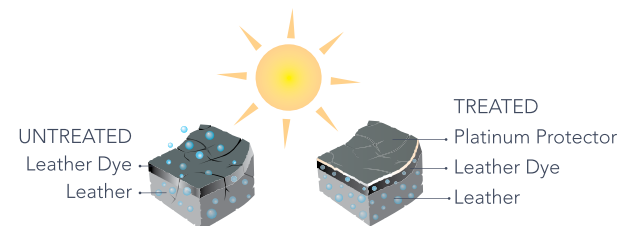

Leather/Vinyl Protection

### **Platinum Shield** *Leather / Vinyl Protection*

The sun's harmful ultraviolet rays cause fading, cracking and discoloration of your RV's leather and vinyl interior.

**Platinum Shield Leather/Vinyl Protection** prevents aging of your RV's interior leather and vinyl. Penetrating conditioners create a barrier that locks in the essential oils and pigments and provides ultraviolet sunscreen while still allowing the leather to breathe. The flat satin finish of a protected dashboard eliminates glare and reduces dust.

Guaranteed to protect your leather & vinyl from cracking, hardening or color fading
